## About Me

I am a software engineer with a strong foundation in problem-solving and algorithmic thinking. In 2025, I will earn my Bachelor's degree in Computer Science. Additionally, I hold a Bachelor's and a Master of Science degree in Structural Engineering, bringing a unique analytical approach to software development.

A goal driven person with 8+ years of experience in structural engineering and 2+ year experience in IT application support. Successful at working with clients, providing technical knowledge and support, supervising design teams to accomplish projects under tight deadlines and budgets. Passionate about Web Development and IT industry

---

## Experience

---

17/07/2015 – 30/09/2015, Bucharest, Romania

---

## Education

---

**Titu Maiorescu University** / Bachelor Degree in Computer Science  
2022 - present

**Technical University of Civil Engineering Bucharest - Faculty of Engineering in Foreign Languages** / Master of Science in Structural Engineering  
2018

**Technical University of Civil Engineering Bucharest** /Bachelor of Science in Civil, Industrial and Agricultural Buildings  
2016

---

## Language Skills

---

Mother tongue(s): Romanian

Other language(s):

**English**

LISTENING C2 READING C2 WRITING B2

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

## Hard Skills

---

**Technologies:** HTML & CSS, JavaScript, Git&GitHub Linux

**Currently learning:** Python, Tailwind CSS, Node.JS, OOP, MongoDB, SQL databases, RESTful API development

**Operating Systems:** Experience with Windows and Linux .

Continuously improving and expanding my understanding of Algorithms and Data Structures, authentication and authorization mechanisms and actively enhancing my knowledge in this area, particularly using JWT (JSON Web Tokens) and OAuth2.

Proficiency in debugging code and using browser developer tools for troubleshooting.

Understanding of design principles and UI/UX concepts to collaborate effectively with designers and create visually appealing user interfaces.

Understanding of basic networking fundamental, OSI Model, protocols, configurations and basic troubleshooting

Understanding basic security principles and practices. Knowledge of access control mechanisms and user permissions.

Writing clear and concise technical documentation and code.
